E37801 LONDON TRANSPORT

On New Years Eve 1974, whilst stationed at Tottenham Garage RM1368 was involved in an arson attack. Though severe, the damage was confined mainly to the upper deck, this allowed it to be converted by the L.T. Apprentices in to a single decker.

Although fully operational as a single decker, RM1368 was never to re-enter public service. It was used however as a test vehicle, which then released RM8 for public service.
