TOOLING UPDATE

Exclusive First Editions are proud to show the development of the new one piece casting for the Bristol VR 1 and the "flat fronted" Bristol VR 2 and the modifications made to the Y Type tooling to enable us to add the Bristol style front and the bus variation to the existing combinations.

The images show the tooling patterns we received earlier this year for us to comment on and tweak towards the exacting standards that our collectors have come to expect from our models, keeping us number one in the Die Cast model market.
