New Transfers For 2019 - Batch 5

These are the latest batch of new transfers received from the printers. (Last Updated 12th July 2019)
Our latest batch of new transfers are mainly further blinds for the London RT class of vehicles. These are mainly full blind sets for routes not previously covered plus a selection of ultimate destination sets.
We've also added a couple of new blind packs for the RM/RML classes and three packs containing just ultimate destinations for the RM & RT vehicles, some of these could also be used on later vehicle types.
Press CTRL+F to search this list for a particular ultimate destination or route number.

A full list of all the new 2019 transfers received from our printers to date can be found at:
